

The Freedom™ Community Nest features a gently sloped top which increases bird space in your house.

Create A Happy Community!

VAL-CO® Community Nest

VAL-CO Community Nests are high quality, water-resistant nests that can be easily assembled on-site. The hen-friendly design includes a gentle expeller to prevent hens from brooding, nest pads with holes to keep the eggs cleaner, and a sloped nest bottom to allow the eggs to safely roll on to the center belt. The nest pads are comfortable and inviting to the hens, which helps prevent floor eggs, and leads to greater output of high-quality eggs.

Features:

- Flat top, shingled or hinged styles available
- Designed for quick assembly
- High-rise or floor mounted, with multiple leg lengths available
- Use of washable plastic tops and partitions
 - Low noise environment creates superior laying conditions
 - Easy to clean, unfriendly to bacteria & mites
- Perforated mats enhance egg cleanliness
- Long-lasting Galvanized wire components

The Community Nest from VAL-CO is very inviting to your birds.

With slide together components, assembly is simple.

The shingled top (left) and the hinged top (below) are two of the three styles available for the VAL-CO Community Nest.

Performance You Can Count On

Winchable Slats

To make cleaning even simpler, VAL-CO offers winchable slats, saving labor time from disassembly and reassembly. The open slat design on top and front promotes greater airflow, yielding drier, higher quality manure while the slats are in use. At clean-out, simply raise the slats out of the way with the included winching and producers have easy access to the manure below – no disassembly required!

Poultry Flooring

Our wear resistant, rugged, polypropylene poultry slat, made from new, untouched material, can be used on galvanized metal frames, fiberglass rail support systems, or wood frames. The slip resistant surface with 1" x 1 5/8" openings cuts cleaning time and will improve your bio-security since it will not harbor bacteria. Available for winchable and non-winchable slat systems.

Call your local VAL-CO representative or distributor for more information on this and other fine quality products.
