MAXILIGHT ANTI-SLIP

EVA/RUBBER BOOT
LIGHTWEIGHT & HEAVYDUTY

NITRILE
Maximum slip resistant
Anatomical bridge
Superior chemical resistance to
fats, oils, hydrocarbons, certain
acids and caustics

DESCRIPTION

- 15" Height
- Extremely light and flexible product
- Reduces fatigue for all day comfort
- Special EVA mixture provides chemical resistance
- Durable and flexible seamless upper
- 100% Waterproof
- Memory foam insole for extra comfort

UPPER

- Calf-Ergonomic design for extra comfort
- Special EVA blend in which isolates efficiently in warm and/or cold temperatures
- No need for thermal socks (in most cases)

SOLE

- Made out of compact NITRILE rubber
- Outsole designed for maximum slip resistance
- Specially formulated for chemical and slip resistance
- Structured to provide excellent thermal insulation
- Prevents heel level from collapsing

TOE CAP (OPTIONAL)

- Composite Safety Toe Cap ASTM F2413 M/I/C EH
- Dielectric
- Meets ASTM standards
- Specially designed to offer extra protection in case of accident

COLORS

- White/Blue
- Black/Blue

SIZE

- 6-13

IDEAL APPLICATION

- Oil and Chemical Industries
- Industrial Coolers
- General Purpose
- Farming and Agriculture
